

Career/Job Changes

1. I have a query on the timing of events. Suppose one wants to predict the change of a job, and finds that dasa (X) with bhukti (Y) will give a change of a job. So how do we predict the year and the month, or maybe the date in that particular dasa and bhukti?

For changing the job, the sub-period lord (Y) must be connected with the 6th house, treating it as "B".
