

Rectification

1. Would it be possible for you to give us an exercise in rectification?

A list member has given a chart for birth time rectification, with the following details and some instances of the life.

Male, Date of Birth 26th March 1929, Place of Birth: Beaudersert, Australia, 27 S 59, 153 E 00.

The longitude and the latitude are very important for birth time rectification. A slight change in these figures changes the ascendant, and so the birth time. Some computer programs give approximate figures for cities, so there is a difference in the value of the ascendant. For example, a one-minute difference may change the ascendant by a few minutes in ascendant.

Birth time is midnight, 12:05 (*assumed*) as per mother's statement.

Events of the life given:

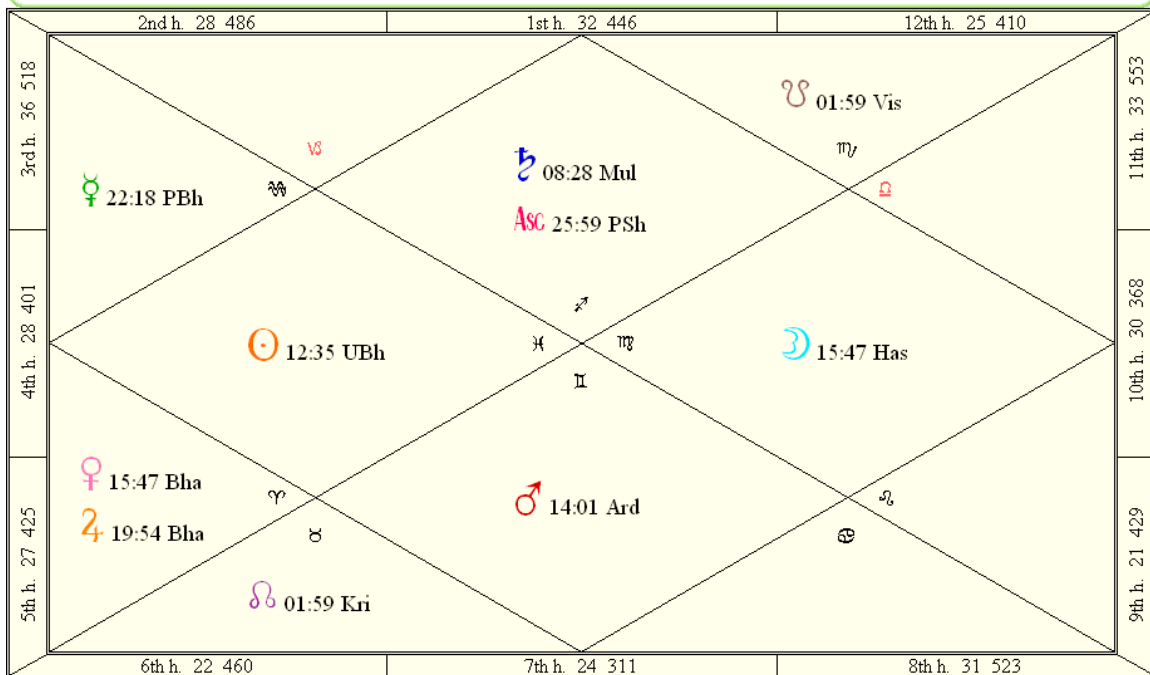

1. Finished school in late Feb 1943.
2. 1st job as an apprenticeship in March 1945, but cancelled after 3 months.
3. In 1946 he made several attempts made for job. Bad year.
4. In 1954 left Australia for Europe.
5. Date of marriage 12th Dec 1959 (at the edge of 30 yrs)
6. 1st issue (child) 5th July 1960.
7. 2nd issue (child) 14th Nov 1964.
8. Bought a house in August 1968 (London)
9. Return to Australia Aug 1968.
10. Bought a house in Australia 1972 Aug.
11. Emergency operation on 29th Dec 1981 (Gall Bladder)
12. Fell from ladder and broke knee 30th Aug 1985
13. Forcibly retired 12th Feb 1990.
14. Purchased a new car 17th Feb 1998
15. Made Worshipful Master of his Freemasons Lodge 25th July 1998.

	ASC	☉	♃

These were the details given. Now since the marriage was late, we look for Saturn as it must have something to do with this. If we take Sagittarius as the Ascendant, then Saturn becomes the lord of the second house, and it aspects the seventh lord Mercury. The 11th lord is Venus, and although it doesn't have sight in the rashi chart, it *does* have sight of Saturn in the Navamsha. Saturn also has sight of Jupiter in the Rasi, which reduces the delay.

Similarly we can check the *next* Ascendant. If we take Capricorn as the ascendant, Saturn is then situated in the 12th house, and has sight on the 7th and 11th lords, and again the 2nd lord is Saturn itself. The sight of Jupiter is there also. But in this

case, the 12th lord of the seventh house is Mercury (lord of sixth house) and is situated in the 2nd house (using Capricorn ascendant), while the fourth lord (lord of house 'D') is situated in the sixth house. So there is more of a possibility of having Capricorn as ascendant, (considering only Marriage.)

Venus has played a key role in the life of the Jatak, (Native), and has given both bad and good results. For a Capricorn Ascendan, Venus becomes the lord of the 5th and the 10th houses, so it is called a Yogakaraka.

He had not taken on more education. For a Sagittarius ascendant, Jupiter and Venus in the 5th house do not reduce education.

The person having a Sagittarius ascendant gets points in 3rd , 6th, 10th and 11th houses as 36:22:30:33.

Samudaya Ashtakavarga

28	27	22	24
36			31
28			21
32	25	33	30

So this person should be in service, and should have some authority, as well as do somewhat sophisticated work. This however, is not the case.

For a Capricorn ascendant, the points in the 3rd, 6th, 10th and 11th now become 28:29:32:31, which indicates hard work and less income - compared to work output. (More work by hand, than head). (See charts below).

Samudaya Ashtakavarga

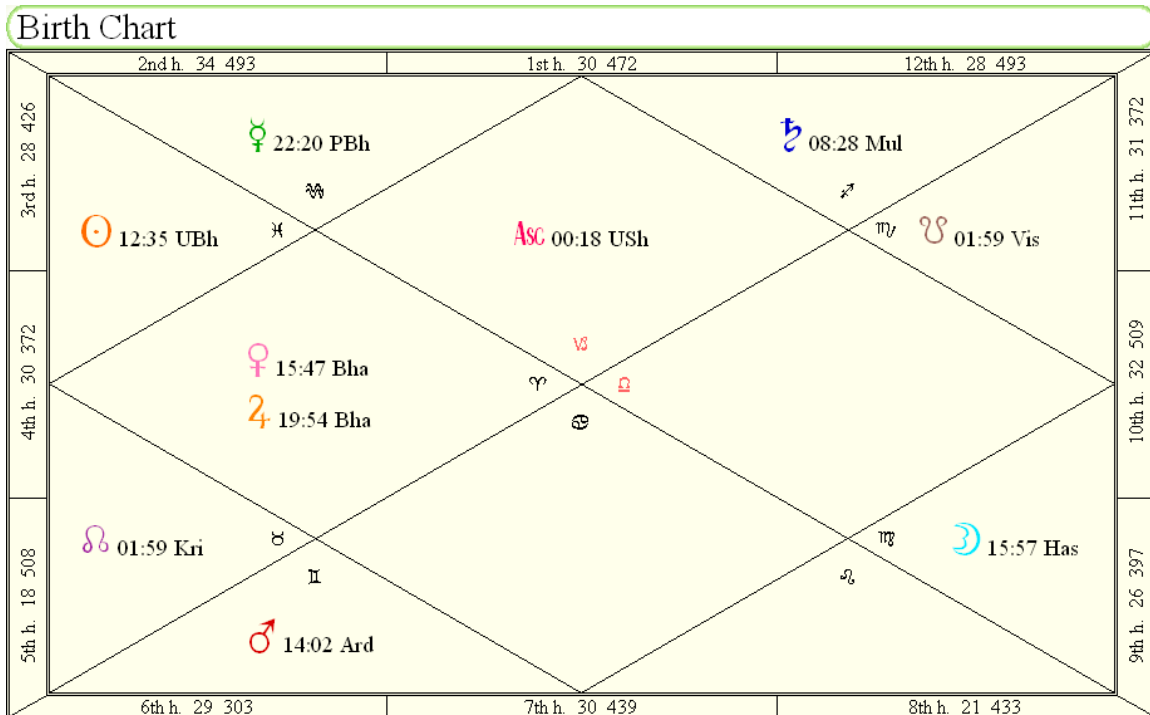

28	30	18	29
34			30
30			21
28	31	32	26

So I have fixed Capricorn as the Ascendant.

Now for this ascendant in his chart, the death of his father may be in Moon, Mercury, or Saturn, and that of the mother, in Moon, Sun or Jupiter. So I asked the list member for feed back about this fact. Both instances happened in the Moon subperiod. His Father died on the 13th of September 1971, and his mother on the 27th of September 1986. Both times, the sub of the Moon was being triggered, which also confirms Capricorn as the ascendant. (This portion means the death of the father and the mother. I will explain more later on, but any studious student can find about the bad period for the parents.)

Now suppose we take Capricorn as the ascendant, then the person must face some tooth, tonsil, throat problems, and the person should have some worries, for no reason. This period was from September 94 to February 97. The list member has also confirmed this fact. Again the year 46 was the worst, that time it was Saturn, lord of Ascendant and also lord of the second house. So this gives mixed results. Being 2nd lord, it gives a bad year.

This person's study was discontinued in the Rahu subperiod, and the native (Jatak) forcefully retired in his Rahu sub, meaning that Rahu must be in sync with the Ascendant. When Rahu is in the fifth house and in the same Navamsha of the Ascendant, the native faces some problems for the place it is situated. In this case, Rahu sub discontinues the education, and discontinues in service.

		☉	♃

The birth of the children is somewhat related to the 10th and 2nd houses, their lords, planets in these houses, and samdharmi to these planets.

The first child was born in a Jupiter sub; Jupiter is samdharmi to Venus (10th lord) and the 2nd child in a Mercury sub, which is situated in 2nd house.

The major events of the native's life are in order with Capricorn as the Ascendant. About this time, the ascendant must have the same degree as that of Rahu. So the time came as 00:25 AM on the 26th of March, 1929.

Again, checking all the events for this chart, it all matches. In Drekkana (Dreshkona) the Moon is in Saturn's sign giving moderate brilliancy.
